

2022-2024 Selection results
First application deadline – 12th January 2022

Selection process

The Europubhealth+ Selection Committee is composed of representatives of the 8 partner universities of the consortium.

>> The eligibility of each application was carefully checked based on the list of [Europubhealth+ admission requirements](#) (previous degree, language level...).

>> The quality of each eligible application was then assessed by the Selection Committee based on the [Europubhealth+ evaluation criteria](#). All eligible applications were ranked in order of merit. Because the number of places in the programme is limited, only the highest ranked candidates were selected to join the programme.

Admission to the Europubhealth+ programme is highly competitive. Therefore, many applicants could not be selected even if they were eligible.

> We have received 1262 applications in total for this round of applications. 678 applications were eligible. Among them, 140 candidates were offered a place in the programme for 2022 intake and 25 of them were awarded a full Erasmus Mundus excellence scholarship.
